

Growing Forward with Packaging Equipment Grant

Empowering growers and packers to upgrade their facilities, the government is offering local growers and packers a 75% grant/rebate on equipment.

This initiative, called the Enterprise Infrastructure Traceability Program (EIT), aims to increase the implementation of facility-based traceability systems across the agri-food chain in primary and secondary agri-food production sectors.

The EIT Program will assist producers/farmers, food processors and agri-food businesses by assisting with specific costs relating to the purchase and installation of traceability infrastructure, and the training of staff to implement traceability systems for plants, animals and agri-food products.

At Associated Labels, we understand the value of this government initiative, and our packaging equipment specialist are available to offer their technical expertise and consultation services to support you in the process.

Let us create a custom packaging solution for your company. For further information please contact one of our Packaging Experts 1.800.661.4764

Application deadline: November 30, 2009
