

FLEXIBLE PACKAGING

Unsupported printed films for a variety of products, including specialty wraps and shrink film applications.

At Associated Labels, we're committed to delivering innovative decorating and packaging solutions that fit our customers and their products perfectly. That's why we created our new Flexible Packaging Division to handle the specialized requirements of specialty packaging and films.

Equipped with a 11 colour flexo/gravure/laminating Comco press, our Flexible Packaging Division supplies printed films on an ever-increasing number of face stocks, including:

- high shrink film for shrink film applications: PETG
- horizontal/vertical form fill printed films
- inline bar wrappers: clear and metallized
- stand up pouches
- powder and liquid pouches
- tea bags
- coffee bags
- specialty chocolate wraps

The perfect fit for products of all shapes and sizes.

We've got you covered.
